Tell me about yourself?

Hi, this is Saiteja.

1. I am currently working as a Sr. DevOps Engineer at Tesla Motors. I have over 9 years of experience, out of which 7 years are in DevOps. I have worked with both AWS and Azure, and I have worked with on-premise physical VMs for deploying web applications and databases.

i had worked with AWS: VPC, EC2, Lambda, S3, RDS, ECR for private Docker registry, and EKS for Kubernetes.

i had worked with AWS Azure: Azure VM, Azure Functions, Azure SQL, Virtual Network, App Service Plan, ACR for Docker registry, and AKS for Kubernetes.

1. When it comes to CI/CD automation, I used Jenkins, Azure DevOps pipelines, and GitHub Actions.
2. Version control tool as Git, source code management as GitHub Enterprise, Bitbucket.
3. my primary role is app modernization of our microservice applications. As part of this, I worked with Docker, writing Docker files, generating Docker images, and deploying them into Kubernetes cluster using Helm charts.
4. I had an hands on experience in infrastructure as code provisioning tools using Terraform script, and change management automation using Ansible.
5. i used to monitor tools as im a part of prod support ,cloud watch logs in aws and azure monitor in azure and prometheus and grafana visualization for monitoring kubernetes cluster
6. i had deep knowledge in shell scripting and python
